

Flow by TIE KINETIX for SYSPRO

SOLUTION FACTSHEET

TIE Kinetix delivers Software as a Service (SaaS) solutions to companies, governmental institutions, and their suppliers to help them exchange all business documents electronically and simplify supply chain processes. FLOW Partner Automation, TIE Kinetix's software platform, empowers its users to engage in smart business exchanges and streamline communication through seamless integration with any existing system.

Since 1987, TIE Kinetix has supported all EDI and e-invoicing standards and communication methods worldwide. Their global team of experts share their knowledge with over 2500 customers, facilitating the exchange of over 1 billion documents through FLOW each year.

EDI for SYSPRO provides you with one-stop-shop for all your EDI needs, making electronic document exchange between SYSPRO and your trading partners easy and hassle-free. You'll no longer need to navigate between multiple systems to accomplish day-to-day tasks. You can also stop worrying about new requirements and unique maps. EDI for SYSPRO is easy to use, requires zero development and minimal set up, providing huge savings for implementation and maintenance. With TIE Kinetix's extensive partner network, you can leverage more than 300 000 pre-configured trading partner connections. You'll also have access to a rich library of trading partner maps and application connectors.

The Benefits of TIE KINETIX for SYSPRO:

- Quickly exchange inbound and outbound business documents in any format. TIE Kinetix supports any-to-any translation and all communication protocols
- Add measurable value to your business and contribute to higher productivity
- Reduce significant costs associated with business-to-business integration
- Eliminate errors by automating all manual data entry and validating your transactions, data, and business rules
- Rapid implementation and trading partner onboarding with thousands of preconfigured connections at your fingertips
- Automatic implementation of integration updates with zero system down-time.
- Certified, cloud-based EDI solution with a service level agreement that is fully integrated with SYSPRO
- End-to-end analytics and industry-leading reporting in an easy-to-use dashboard (transaction, exception, and functional acknowledgement reporting)
- Improved relationships and collaboration with trading partners through real-time information exchange and enhanced visibility
